**Updated 5/10/23**

March 20, 2023

To Our Wholesale Customers,

InSinkErator® is excited to announce that we are launching a series of enhanced disposers that will replace and upgrade our PRO Series® and Contractor Series. Beginning in June 2023, we will be phasing-in these new models.

The new Advanced Series (Pro models) and Power Series (Contractor models) feature easier install, increased stages of MultiGrind® Technology, elevated SoundSeal® Technology, and increased horsepower, setting them apart from current InSinkErator PRO Series models. The new Advanced Series (Pro models) will maintain the Over-the-Counter Warranty Exchange Policy.

As with any new product introduction, we understand there will be a need to lower your inventory of current models and ramp up inventory for the new line. Please follow the process below:

- Orders for **current** Contractor 333 and Contractor 1000 models will be accepted through May 31, 2023, with immediate ship dates.
- Orders for the **new** Contractor 333 and Contractor 1000 models will be accepted starting June 1, 2023.
- Orders for **current** PRO 750, PRO 880LT, PRO 1000LP, PRO 1100XL, PRO Cover Control Plus models will be accepted through July 2, 2023, with immediate ship dates.
- Orders for the **new** Pro 750, Pro 1000, Pro 1250, and Pro Cover Control models will be accepted starting July 3, 2023.

Your InSinkErator representative will work with you on fill-in orders of the current product to help reduce inventory levels and subsequently assist in ordering the new models. With the launch of the new products, we will not be allowing any returns on the current Contractor Series and PRO Series models.

Please refer to the matrix below for new model numbers, UPC codes, expected launch dates, and pricing to update your system. For any other questions, please contact your InSinkErator sales representatives.

Best Regards,

Robert W. Grim  
Vice President - Sales
