

# A STYLISH START TO A STUNNING KITCHEN

Cleaner kitchens start with InSinkErator® food waste disposers. And those disposers start with style - style that will enhance any kitchen design.

Introducing an all-new line of designer air switches, brilliantly sculpted to add accent and highlight to the kitchen sink, while effortlessly turning on and off any InSinkErator disposer. Available in five stunning designs and five of the most demanded finishes, there is a designer air switch to complement virtually any décor - from antique to contemporary, from farmhouse to penthouse.

## BUILT TO PERFORM AND LOOK GREAT DOING IT

InSinkErator designer air switches are functional and attractive alternatives to standard wall switches and require no special wiring.

You can add them with confidence, knowing that they are the best in quality, style, and affordability. And because they're from InSinkErator, you know they're built to last and retain their stunning looks.
